Health Innovations Poised to Change the Future

Dr. Sanjith Saseedharan

Renowned Consultant in Critical Care

"AI, blockchain, nanoparticles, and nanorobots will drive future health innovation—enhancing diagnostics, securing patient data, improving drug delivery, and accelerating treatment discovery for more precise, private, and effective healthcare solutions."

Dr. Deepak Bhatia

Leading Orthopaedic Surgeon

"Bio-structural augmentation of tendon and ligament repairs in shoulder and elbow surgery, when used with the right surgical experience and techniques, can be a game- changer in sports surgeries"

Dr. Preetam Samant

Eminent Retina Surgeon

"Gene therapy opens up promising possibilities for treating vision threatening retinal diseases. Targeted gene therapy, involves introducing a healthy copy of the defective gene into retinal cells, thus potentially restoring their function and eventually preserving or improving vision"

Rank	BEST GYNAECOLOGY & OBSTETRICS HOSPITALS: ALL INDIA	CITY

Health Issues that Matter Most

Dr Rasik Shah
Senior Paediatric Surgeon

"To provide comprehensive best healthcare to children we need many more multispecialty children's hospital. Children's are not just small adults, they need age specific specialised care in family friendly environment that children's hospitals are designed to provide. It includes doctors, nurses and also equipment's which are specifically designed for children"

Dr. Pradyumna J. Oak
Renowned Neurologist

"Around 1.2-1.5 million new stroke cases every year Only 2% reach the hospital in golden period. Cases have increased by almost 51% over last thirty years Stroke is a leading cause of disability and death, early diagnosis and acute care in a "stroke ready hospital" is of paramount importance and need of the hour. Time is Brain"

Dr. Barnali Das
MD, DNB, FADLM, FAMBI

"Cardiovascular disease (CVD) is the leading cause of death globally and a growing epidemic in India. Therefore, the biomarker based cardiac care model in early diagnosis and clinical decision making involves strategies for harmonising with all stakeholders in order to formulate guidelines for correct diagnosis and management of CVD"

Health Issues that Matter Most

Dr. V Balaji
Renowned Vascular Surgeon

"Vascular wellness is the foundation of well being. This is often ignored until complications happens Saving your blood vessels is saving your life.Every 30 seconds someone somewhere on this globe is losing the limb Unfortunately 80% of these can be saved by timely intervention"

Dr. Tharun Krishna
Leading Neurosurgeon

"Eminent NeurosurgeonA sedentary lifestyle is the pressing concern of our times. It breeds obesity, raises the risk of cardiac disease, induces muscle weakness and chronic pain, and promotes osteoporosis. Be active, and be healthy"

Dr. Prasad Narayanan
Senior Consultant & Director - Medical Oncology, Hemato Oncology & BMT

"We deliver site-specific, patient-centric cancer care, recognizing each journey is unique and emphasizing personalized treatment tailored to every patient's individual needs and circumstances"

Dr. Santanu Sen
Leading Pediatric Hemato Oncologist

"Recent breakthroughs in haematology like CRISPR-Cas9 have enabled precise gene editing to cure sickle cell disease and beta-thalassemia. Fourth-generation CAR-T cell therapies deliver remissions in previously untreatable leukaemias and lymphomas. Next-generation sequencing detects single-cell mutations, delivering ultra-personalised treatments"

Dr Abi Turab. S. Choonia
Leading Orthopaedic and Joint Replacement Surgeon

"Orthopedics focuses on movement, and precision is crucial for limb issues. Today, AI, robotics, and 3D technologies enable accurate joint replacements and deformity corrections, greatly improving outcomes—even in the hands of average surgeons"

Dr Vinod Balachandran
cancer surgeon and researcher at Memorial Sloan Kettering Cancer Center

"Cancer vaccines have always been a long sought-after goal and have been tried over the decades by the whole scientific community, mostly built on this knowledge that vaccines have essentially been the most impactful medicine in all of human history to improve health"

The aim of this research was to arrive at a list Top Hospitals in India for the year 2025. The survey Conducted by NEB RESEARCH covered 10 cities across India (Including NCR, s) which are important healthcare hubs. Top hospitals for specializations were surveyed accordingly. The specialties that we included in the research were Cardiology, Pediatrics, Gastroenterology, Orthopedics, Neurology, Oncology, Pulmonology, Infertility, Liver Transplant, GI Surgery, Gynecology and Obstetrics, Organ Transplant, Ophthalmology, Urology, Nephrology, Neurosurgery and Endocrinology and Diabetes

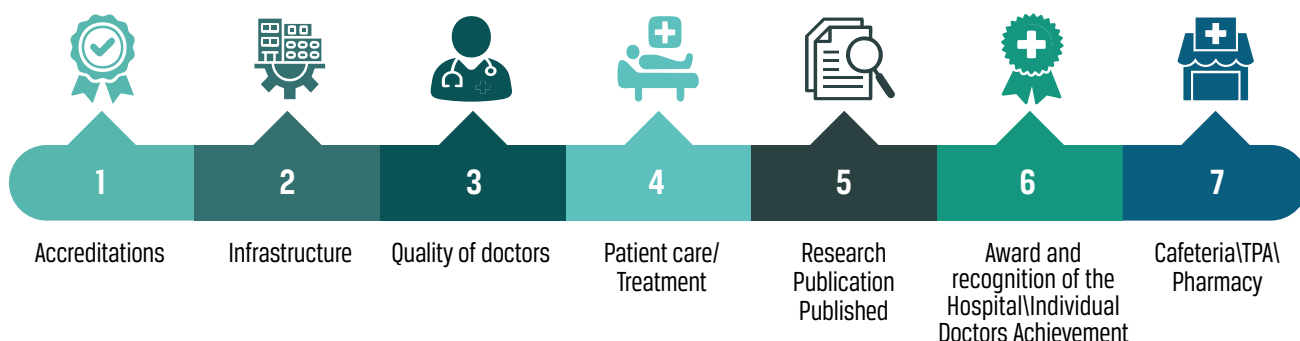

METHODOLOGY INDIA'S BEST HOSPITALS 2025

STEP 1

Authentic Data Collection

An Elaborate questionnaire was sent to all hospitals to collect factual information based on varied parameters that ranged from the hospital's Infrastructure to the quality of treatment provided. A total of 1550 hospitals were contacted for factual information.

Data sheet Focus

STEP2

Perceptual Survey

In the perceptual survey module for Top Multi-speciality Hospitals Ranking Survey, a primary survey was carried among health care experts- A total of 2120 interviews were conducted across 10 cities viz. Delhi/ NCR, Mumbai, Kolkata, Chennai, Bangalore, Pune, Hyderabad, Jaipur, Pune. The respondents were asked to rank top multispecialty hospitals in their cities, top hospitals in their respective specialities.

STEP3

Desk Research

With the help of a secondary research module an exhaustive list of Multi- Specialty Hospitals was prepared with the help of Medical publications, Internet and various Government of India sources like Central Bureau of Health Intelligence (CBHI), Directorate of Health Services and Department of Public Health and Preventive Medicines.

Analysis and Final Ranking of Multi-speciality Hospitals

Hospital Rank is based on the total number of nominations received, ranks given, and the ratings on the parameters mentioned in the article comprising desk research, factual score and perceptual survey. In certain cities all specialties ranking couldn't be done due to the lack of enough data, only those specialties were covered where sufficient data was available.

Disclaimer

While immense care has been taken to provide an honest assessment, the needs of each patient can be different. So, while this list can be used as a guideline, decisions should be based on what works best for the patient.
